

MODEL

CB-GO

CODE

C1262.02

CB-GO is the all-in-one kit that includes all you need for an easy and practical **self-installation** of your CB system!

The truck-shaped blister includes: **M-MINI**, the **multi-media mini CB** transceiver, a **power supply cable with cigarette lighter plug** and the small but performing **Midland LC29 antenna** supplied with its magnetic mount. CB-GO is the **full kit to discover and start communicating with the CB community**: it's the ideal solution for those who daily want to exchange with many people any kind of information in real time, about traffic, accidents, points of interests or for those who just want to have a chat and

be in company while driving.

M-MINI is a Midland CB radio already available on the market which achieved a great success thanks to its performances and its ease of use.

M-MINI is a **small-size equipment** - only **110x120x25mm** – and for this, it does not require a proper installation like the standard CB radios, but it can also be placed in little spaces within your vehicle.

M-MINI is a **multi-standard** radio that operates on the main European frequency bands.

With this radio it is also possible to communicate **wireless**: just connect the optional Midland Bluetooth adaptor WA-CB into the 2pin socket on the front panel of the radio, then choose amongst the optional Bluetooth earphones/mike of the Midland WA series.

The **metal chassis** makes of M-MINI an extremely robust and sturdy equipment.
