**XTC-300 Action Camera** makes it easy to capture the action of your sports or your outdoor activities! Shoot your own full HD professional video. Due to the **full HD and HD ready** quality, your videos become professional and affords pin sharp pictures.

With the aim of simplicity, the **XTC-300** utilizes a single slide switch to power on/off and record your videos on the micro SD card.

**Action Camera** has multiple applications thanks to the mounting plates and handlebar mount that are supplied: you can easily mount them on the helmets, bicycles or motorbikes. The **Action Camera XTC-300** is perfect to capture action in your car, from your motorcycle helmet or during winter sports like skiing or snowboarding or wherever your action sports take you.
