Turn your phone's power into your car's display. Android Auto™ is a simpler, safer way to use your phone while driving. The MA1 provides wireless connectivity to your car's existing Android Auto-capable infotainment system, making it even easier to access your favorite maps, media, and messaging apps on your car's screen.

With this integration, enjoy a safer, more convenient driving experience, keeping control of your phone while focusing on the road ahead. Simplify your journey with the convenience and advanced technology of Android Auto and the MA1 adapter.

Android Auto

MA1

WIRELESS CAR ADAPTER FOR ANDROID AUTO™

... engineered by Google

With the Motorola MA1 there are no wires, no fuss, just a seamless connection to Android Auto™ to safely access the apps that you need and be on your way.

5 GHz WiFi for wireless Android Auto™. The Motorola MA1 licenses technology from Google that makes it simple for users to connect to existing USB-enabled Android Auto vehicles wirelessly, making it even easier to access apps using the car's display.
