

## Midland XTC-280

The smallest FULL HD Action Camera!

Cod. C1093

**XTC-280 Action Camera** is the **smallest and easiest camera** FULL HD 1080p that can record and immortalize your most important and enjoyable moments, such as your sporting feats!

You can take it anywhere, just mount it on the handlebar of your bike, motorbike or on your helmet and capture every adventure, at sea or in the mountains, etc.

The **XTC-280** has been designed for the demands of extreme sports or any situation where you want to put yourself in the action. With wide angles lens, it utilizes a **single slide switch to power on/off and record** your videos: keep it simple!

The **Action Camera XTC-280** is easy to use hands-free and is perfect to capture action in your car, from your motorcycle helmet or during winter sports like skiing or snowboarding.

The installation on the optional supports (for bike helmets, ski goggles, motorbike helmets, bike handlebars, etc) is very simple and does not create any obstacle during the various activities due to its extremely limited dimensions and weight (only 70gr!).

Instant commands reduce distraction to a minimum, an added value for this small concentrate of technology conceived for all those sporting activities in which fluidity and freedom of movement are in fact necessary conditions.
